

St Andrew's Church needs Your help

St Andrew's Church is embarking on a major project. We have Good News and Bad News! Bad news first - our ancient boiler is unreliable, inefficient and contributes to climate change. But the Good News - we can change things and Aviva will help us pay for it! But we need to move fast... see below and over for more details.

How you can help

Make a donation

Every donation gets us closer to our goal.

Whether it is £25 or £250 each donation will make a difference.

Thanks to the AVIVA Community Fund each donation will be match funded, DOUBLING the impact of your contribution (up to £250 per person).

Spread the word

Share our project with friends and family. The more people we reach, the more likely we are to succeed.

Donation level

- **The project is time limited**

- **all donations must be made between 22nd September to 31st October.**

- Example: If you donate £50 then Aviva will give a further £50 to us. Aviva will match fund up to a donation of £250 per person.
- There is a small administration charge on your donation. If you wish to support the project with a larger amount, then you could donate any excess above £250 through the Parish Giving Scheme.
- If you have a joint bank account, it is possible for each person to donate up to £250.

Charges

- The Crowdfunding platform automatically receive a small administration fee for each donation. There is no need to pay a further "Tip Amount" when donating.
